Dear Alexey and Marina,

On the eve of New Year and Christmas, the Millmax SIA team expresses its sincere appreciation and gratitude to your team for the fulfillment of our long-standing dream – to get professionally and socially responsible Sales Person onboarded.

We know that our request was not easy-going; we know that professional environment is highly competitive. Nevertheless, your candidate surpassed even our boldest expectations. And the more we collaborate with a new employee, the more we are convinced in that.

On the first glance it looks like a miracie, whereas we used to invest so much money, strengths and time to find the proper employee, you did it so fast and easy for us. But we know that not just luck, but the great experience and deep research stand for your success. This become obvious from the very first step of cooperation, from the form which you suggest to fill and our preliminarily meeting which help to specify our own request and look at it more professionally from the side of hiring. Your deep knowledge of the market was also played an invaiuable roie in the process of hunting.

Now we know for sure who will support us with hiring key employees!

Kind regards,
CEO of Millmax SIA
Ekaterina Cheberiak
